THE COTTON INDUSTRY.

Under British rule the cotton crop of Egypt has doubled, and now amounts o over 500,000,000 pounds a year. It is calculated that the cotton crop

of the south this season will yield \$500,000,000 in cotton and seed, and \$100,000,000 worth of oil.

The 112 cetton mills of Mexico consumed last year 57,000,000 pounds of cotton and produced nearly 10,000,000 pieces of woven and printed goods. These mills give employment to 22,000 operatives, and the sales for the year amounted to more than \$28,000,000.

EXPOSITION PARAGRAPHS.

So many special features have been arranged for the Buffalo exhibition that there will be scarcely a day that the attraction will rest alone with the general display.

It is certain that at the St. Louis world's fair a grouping of novelties will be provided every day and that all the valuable hints from recent international expositions will be utilized and largely added to.

The executive ability shown in Buffalo in handling a new and difficult enterprise resting entirely upon the public spirit of the city is highly creditable and a convincing proof of the varied ability of an American business community.
